

Wiring diagram for Ignition (2TR-FE) showing four ignition coils (C7, C8, C9, C10) connected to a common power source (IG) and ground. The diagram includes color-coded wires (B-R, W-B, G-R, R-Y, R-L, G-B) and labels for various components like the 10A INJ, CA1, and C88. The ECM is connected to the G-R line.
